B3U4 写作产出任务—介绍家乡"淄博"

TSCA——Assessment

Hello everyone, I am honored to stand here and introduce Zibo to you, this recognizable city.

Located in the middle of Shandong Province, Zibo has a long history, plays a significant role in the history. The sudden popularity of Zibo is not only due to its delicious barbecue and Boshan cuisine, but also because Zibo has a deep Qi culture.

Zibo is the former capital of Qi. China's first university "Jixia Academy" opened here. So Zibo has rich Qi culture. The Jixia Academy in the Warring States Period was the center of "contention of a hundred schools of thought". Scholars with different views gathered here to write books and publicize their own views. It can be said that the academic atmosphere at that time was very free, which also promoted the development of academia and pushed the Chinese people to get closer to the truth. The free academic atmosphere also served as a source of inspiration for literati and magnificent works have been written by literati. The Jixia Academy cultivated talents, promoted the integration and development of academic ideas, and promoted the formation of Qi culture. Qi culture has a profound influence on the culture of Shandong and even the whole country.

Tourists who come to Zibo today will also be attracted by the cultural charm of Zibo. The Qi Culture Museum has won over many visitors' attention. In recent years, Zibo has made progress in the inheritance and innovation of Qi culture. On the one hand, the implementation of major projects on Qi culture has strengthened the inheritance and promotion of Qi culture, and more and more people have learned Qi culture. On the other hand, people insist on taking artistic creation as the path, shooting and producing a number of excellent film and television works and projects, and creating new culture with Qi culture.

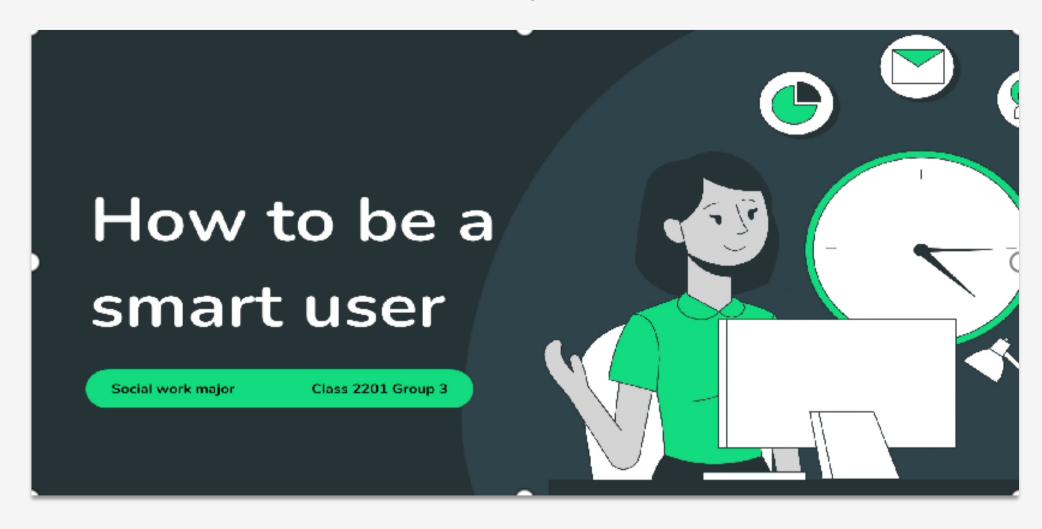

Of course, in addition to these, Zibo has a lot of culture waiting for us to learn. I hope you can come to this city shining with history and possibility and experience its culture.
