“ Task-based teaching and learning ;
Cooperative-learning. ”

Teaching plan

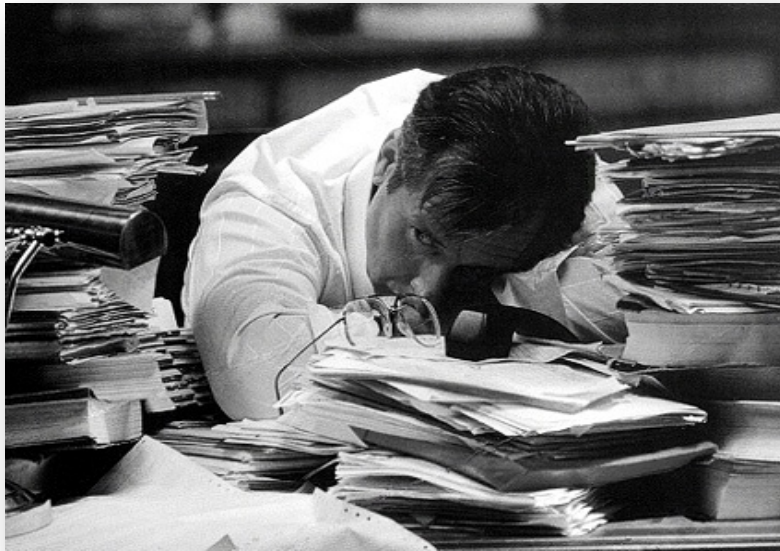

5. Teaching procedures and time allocation

 Which way of working do you prefer?

work without the computer

V.S.

work with the computer

Items for comparison and contrast

With computer

- More **quantity** of production
- Less **time** in the library
- Less work on note-taking
- Less **repetition** in typing

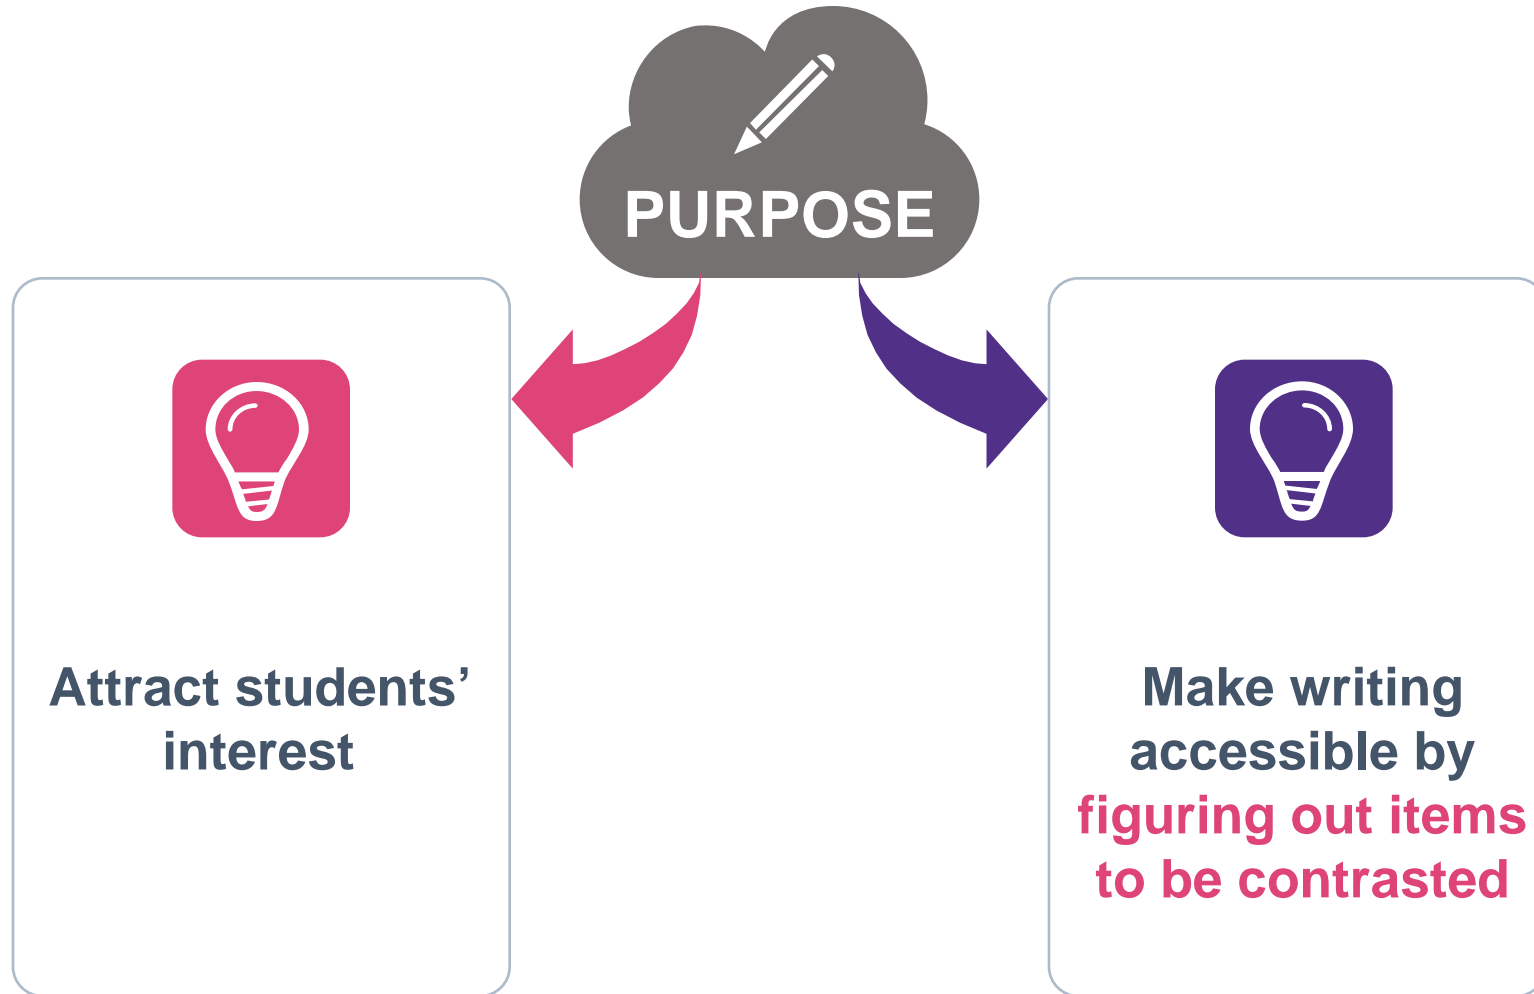

?

?

?

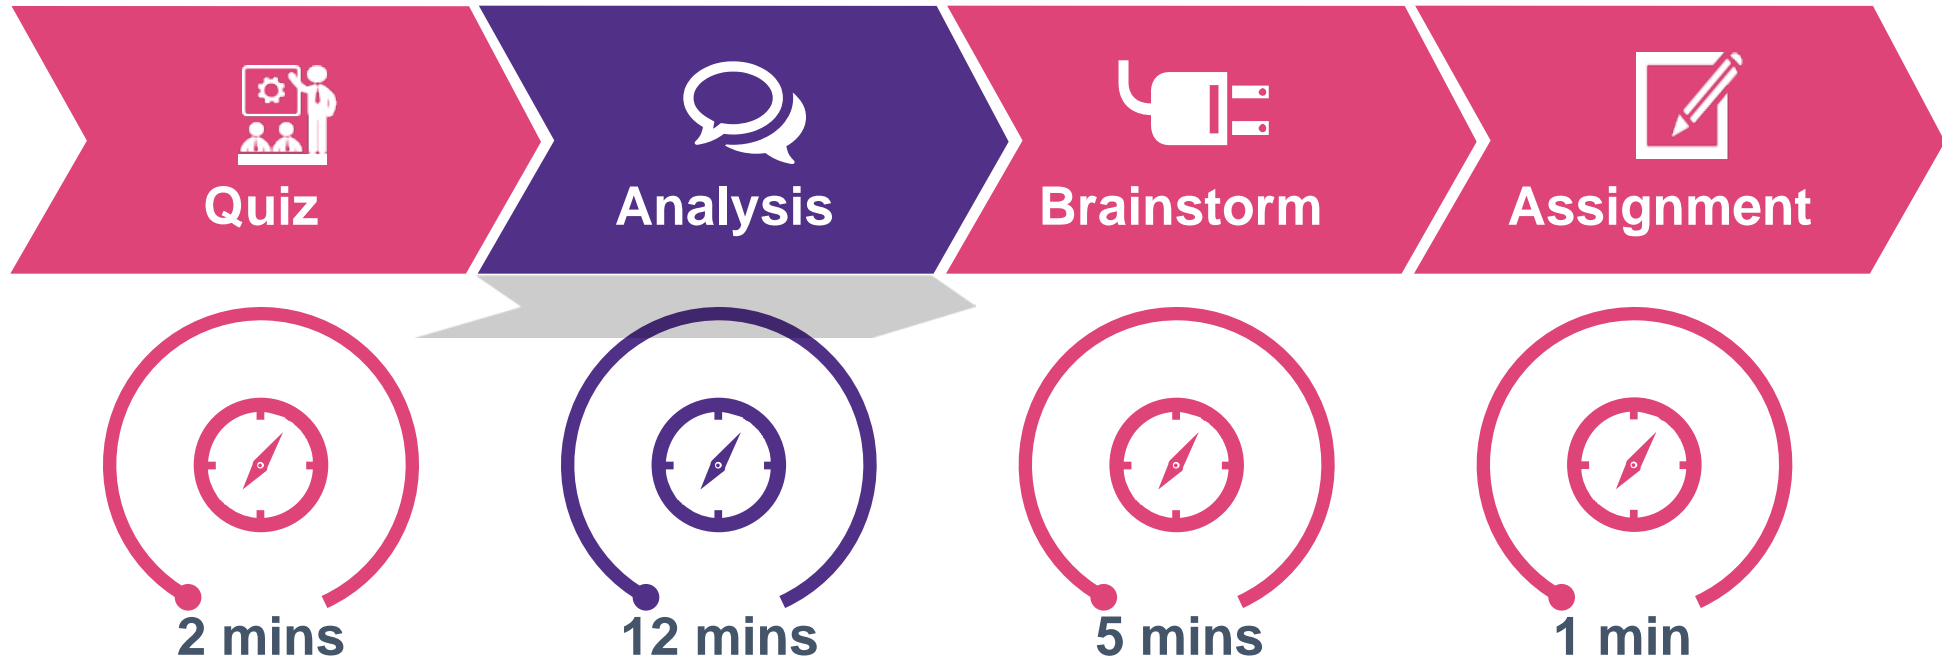

Without computer

- Not necessarily a less successful career
- Better **chosen words**
- More carefully thought-out ideas
- **New ideas** on the way to the library or while typing

5. Teaching procedures and time allocation

Analysis– sentence skill

Are my sentences varied?

Students' sentences	Para. 9 (Unit 6)
The computer and the Internet have good influence on our daily life.	We cannot seriously imagine living in a world that lacks the technologies we now use every day.
I never want to go back to the old life without computers.	The thought of having to abandon my Macbook and go back to my old-Smith-Corona fills me with dread .
Without computer I could do nothing but type.	There is no doubt that without computer on which to write, I would have had to type and retype my articles.

Analysis -- building your language

Describing attitudes toward new technologies

“

repudiate fill...with dread skeptical turn one's back on

1. People in modern times tend to _____ handmade products and embrace mass-produced ones.
2. Some teachers are _____ of technology-rich classroom.
3. Electronic products are being _____ by those people who lament the good old days.
4. The thought of shopping online has _____ many senior people _____.

”

5. Teaching procedures and time allocation
