

Contents

Unit 1

Introduction to civil engineering P1

Text A What is civil engineering? P2

Text B Civil engineering wonders P17

Unit 2

Civil engineering materials P21

Text A Green building materials P23

Text B Reinforced concrete P37

Unit 3

Civil engineering structure P41

Text A Beijing National Stadium P43

Text B High-rise buildings P55

Unit 4

Bridge and tunnel construction P59

Text A The Golden Gate Bridge P61

Text B The Channel Tunnel P74

Unit 5

Civil engineering project management P79

Text A Project management P81

Text B Keys to a successful project P98

Unit 6

Geomatics technology application P103

Text A GPS applications in civil engineering P104

Text B Application of Remote Sensing and GIS in civil engineering P120

Unit 7

Water resources engineering P125

Text A Stormwater P127

Text B Better ways to manage urban stormwater runoff P140

Unit 8

Architectural environmental engineering P145

Text A Benefits of green buildings P147

Text B Cool roofs might be enough to save cities from climate overheating P161
